

MEXICAN TEXTILE COMPANY SINCE 1974

Integrated textile production. **Quality** in every meter.

Yarns · Fabrics · Finishing · Printing

CORPORATE PRESENTATION · 2026

01

About Us

Texturizados y Tejidos Windsor was founded in 1974 with a very clear conviction: quality products and customer service are our priority. Since our beginnings in the industrial zone of the State of Mexico, we have grown for more than five decades into a plant with vertically integrated production.

We control every stage of the process: spinning, circular knitting, finishing and printing. That total control allows us to deliver fabrics that stand out as the finest quality in the market, with the serious, attentive service our domestic and international customers deserve.

COTTON FIBER PREPARATION

50+
industry

years of experience in the Mexican textile

01

Our Values

01

Quality

Fabrics that stand out in the market: color, printing, softening, brushing and finishes verified in every batch.

02

Customer Focus

Customer service is our priority: we listen, we deliver and we support every project from start to finish.

03

Social Responsibility

Commitment to the environment, to our people and to a better quality of life for our employees.

Mission & Vision

MISSION

To be an innovative textile company that manufactures products with high quality and service, meeting the requirements of our domestic and international customers, thereby achieving financial stability for the company and a better quality of life for our employees.

VISION

Through mastery of our process, our commitment to people and the acquisition of technology, to become a leading company in the textile industry through innovation.

02

Our Processes

From yarn to finished, printed fabric, all under one roof

Integrated production in three stages

STAGE 1/3

Spinning

We manufacture our own yarn on high-capacity ring spinning frames.

- Cotton
- Polyester / cotton
- Polyester staple fiber

STAGE 2/3

Circular Knitting

We produce fabrics on circular knitting machines, tailored to each customer.

- Knit fabrics — high quality
- Made-to-order production
- Quality control per batch

STAGE 3/3

Finishing & Printing

We provide the characteristics that make our fabrics stand out in the market.

- Color and design
- Softening / brushing
- Rotary printing — up to 8 colors

Certifications & Audits

RCS

CERTIFICATION • JANUARY 2024

RCS Blended

Recycled Claim Standard. Guarantees that our products are manufactured with raw materials from recycled components, verified by an international standard.
